MINIMIZER FLOOR MATS HAVE ARRIVED!

Whether it is the mud and snow off of your boots or your morning coffee, Minimizer's latest innovation is designed to protect the floor of your truck for years to come.

Minimizer's engineers use cutting edge technology to scan the interior measurements and angles of each specific make and model semi cab to ensure an exact fit. The retention hook mounted to the base of the stick shift is designed to keep your floor mat in place.

Our tray system is designed to be removed easily for quick cleaning. In a matter of seconds, you can have your Minimizer Floor Mats looking new and reinstalled so you can get your truck back on the road.

The textured surface will ensure your boots always have a solid grip. They will not break or crack under extreme conditions and are backed by a Lifetime Manufacturers Warranty.

Made out of a proprietary thermoplastic, Minimizer Floor Mats are designed to hold up to the daily abuse of the heavy duty trucking industry.
